Your Comments This property is up for sale in the market, and we keep reaching the Realtor Keith Unger but no reply for more than 3 attempts 3 weeks ago. My questions is are they are serious of selling it because I am much interested the property. This property will be too tight if this will be divided into 2 parcels with variance of 22.25 ft. so in order to abide the minimum RR requirement (set by the city) better sell it to any interested parties as it is of what they are asking for and i am one of those interested local citizen.
My apology i cant attend the hearing because of prior commitment.

Municipal Board Objections I acknowledge that I am 18 years or older.

Your Comments I think having additional new housing next door would be awesome. Hope that the variance goes through.
