## **Mission Statement**

Our mission is to safeguard the community, protecting both people and property from fire and life safety hazards. Through prevention, public education, and emergency response, we strive to be the epitome of efficiency, effectiveness, and reliability in fire protection services.

We are unwavering in our commitment to never compromise public safety of the safety of our team in any uncalculated manner during mission-related tasks.

Our department is dedicated to offering the highest standard of fire service to our community. We achieve this by promoting a culture of excellence through rigorous training, unwavering dedication, and the cultivation of competencies among our team.

## **Steinbach Fire Services**

The Steinbach Fire Department provides protection within the City of Steinbach. Some of the services provided by the department include;

- Fire suppression;
- Motor vehicle incidence
- Vehicle extrication
- Fire Inspections
- Fire Prevention
- Wildland & Urban interface fires
- Hazardous Materials response
- Carbon monoxide response
- Technical Rescues

The Steinbach Fire Department does not provide EMS services and does not respond to medical calls.

## **Steinbach Fire Operations**

The Steinbach Fire Department is a paid-on-call department. This means that the fire station is not staffed with a crew of firefighters. Members of the Steinbach Fire Department receive payment when attending regular scheduled training, authorized specialty training & station duties as well as responding to alarms. Members do not get paid for on-call hours. The Steinbach Fire Department on average responds to 350-400 incidents per year.

## **Recruitment**

Requirements to be considered for employment by the Steinbach Fire Department are;

- The applicant must be a minimum of 18 years of age,
- The applicant should have a minimum grade 12 education or equivalent,
- The applicant must be mentally and physically able to adequately perform the duties of a firefighter,

- The applicant must have a valid Manitoba class 5F driver's license and have no limitations restrictions that would prevent them from obtaining a Class 4F license with air brake endorsement,
- The applicant must be able to pass a Vulnerable Sector Check prior to hiring.
- Proximity of the applicant's home and workplace to the fire station will be considered in the selection of a candidate.

The Steinbach Fire Department provides training for new recruits through the department's training division. With testing done through the Manitoba Emergency Services College.

Applications may be submitted as follows;

- **In person:** At Steinbach City Hall, 225 Reimer Avenue between 8:00 am and 4:00 pm
- **Mail:** Steinbach Fire Department, 225 Reimer Avenue, Steinbach MB R5G 2J1
- **Email:** [firechief@steinbach.ca](mailto:firechief@steinbach.ca)

### **Background Check**

A comprehensive background check may be conducted on applicants to establish evidence of good moral character, a well-adjusted personality, community commitment and a pattern of conduct acceptable to the Steinbach Fire Department. Prior to hiring the applicant will be required to produce a Vulnerable Sector Check as well as a Driver's Abstract.

### **Hiring Process**

- After the application deadline (**Appendix D**) has passed the hiring committee will review the applications and contact those who have been selected to advance to the interview stage. Those not selected will not be contacted.
- Prior to the interview process, the candidate must produce a Driver's Abstract, a Vulnerable Persons Check, and a Physician's Letter (**Appendix B**).
- The interview process consists of two parts, the physical aptitude test, and the interview stage. Each of these stages are done on a separate day.
- The physical aptitude test will test for fear of heights, Claustrophobia, basic strength, and stamina (**Appendix C**).
- The interview will be a panel style interview where you will be asked a series of questions designed to assess your ability to communicate effectively, manage stress, and adapt to different situations and personalities.

Firefighters, especially paid-on-call members, can face highly stressful and physically demanding situations. During your training period you will be evaluated and will be expected to perform all the training evolutions. If you are incapable of meeting these objectives during your training, you may be released from the training program.

## Next Step

- Once all requirements are met, and the candidate is hired, they will be asked to attend an orientation class which will include;
  - A review of basic City of Steinbach and Steinbach Fire Department policies;
  - A tour of the fire department facilities;
  - Completing necessary paperwork;
  - An overview of the training schedule;
  - Distribution of text books and training material.
- Successful candidates will then become a “Firefighter Recruit”.
- The recruits will then begin a 12-18 month training period where they will complete the NFPA 1001-Firefighter I program (including NFPA 1072-HazMat Operations).
- Throughout the Firefighter Level I training program, the recruit will be evaluated on their performance. The department will provide a First Aid course for all recruits at the department’s expense.
- Within the first 2 years the recruits will also receive Vehicle Extrication Training as well as Emergency Vehicle Driving Training.
- Upon passing their NFPA 1001-Firefighter I, the recruit may be hired as a “Probationary Firefighter” and placed on a one-year probationary period at which time they will be instructed, and become familiar with, the operating procedures of the Steinbach Fire Department.
- Following the successful completion of the one-year probation period, the “Probationary Firefighter” will become a “Firefighter I” with the Steinbach Fire Department.

## Training Commitment

- While enrolled in the NFPA 1001-Firefighter I program a recruit will be expected to attend training every Tuesday evening for a 4 hour session.
- There will be a full day of training (8 hours) approximately one Saturday per month.
- Some courses such as the Emergency Vehicle Driving Course are 20 hour courses and would be run on a Friday evening and full days on Saturday & Sunday.
- Once a recruit has successfully completed the NFPA 1001-Firefighter I program and become a “Probationary Firefighter” they will be expected to attend regular training nights on the first and third Tuesdays of each month. These training sessions are 3-4 hours in duration.

**APPLICATION FOR EMPLOYMENT**

## Appendix "A"

### **On-Call**

The Steinbach Fire Department is divided into 3 squads. Each of these squads are on-call every 3 weeks for a one-week period beginning on Monday at 0800hrs and ending the following Monday at 0800hrs. During your on-call period you are expected to be able to respond to all incidents in a timely manner. If, for any reason, you will not be available to respond (out of town, work won't allow, doctor appointment, etc.) you will be expected to find another member of the department to take your on-call duties for the period of time you will be unavailable. There is no financial compensation for being on call. During the 2-week period that you are not on call you are still expected to attend calls when available.

### **Training**

The Steinbach Fire Department does most of its training in house. If you are asked to attend a course out of town the City of Steinbach will cover your accommodations, financially compensate you and cover expenses as per the city's expense policy.

### **Health**

This job brings along with it a potential of being exposed to blood and bodily fluids which may increase your risk of contracting Hepatitis A & B, the City of Steinbach will financially compensate you for vaccination against this disease if you so choose. You will also contribute to and will be covered by the city's death & dismemberment insurance policy.

### **Steinbach Firefighters' Association**

Firefighter Recruits automatically become members of the Steinbach Firefighters' Association. The Association performs extracurricular activities to fundraise for various projects and activities.

Firefighters contribute \$200 annually, through payroll deductions, toward the Association to fund various fire department events and projects.

**Appendix "B"**

Dear Physician;

Applicant's Name has applied with the Steinbach Fire Department for the position of Firefighter Recruit. Please complete the following questionnaire regarding the applicant's ability to meet the physical, emotional & psychological demands of this position. For your reference, a job tasks and description are listed below.

**Job Task Description**

The following medical standards for requirements outlined under the National Fire Protection Association Standard on Comprehensive Occupational Medical Program for Fire Departments 2007 Edition (Referred to as NFPA 1582).

1. Perform firefighting tasks (hoseline operations, extensive crawling, lifting and carrying heavy objects, ventilating roofs or walls using power or hand tools, forcible entry), rescue operations and other emergency response actions under stressful conditions while wearing personal protective ensembles and self-contained breathing apparatus (SCBA), including working in extremely hot or cold environments for prolonged time periods;
2. Wearing an SCBA which includes a demand valve-type positive pressure face piece or HEPA filter masks which requires the ability to tolerate increased respiratory workloads;
3. Exposure to toxic fumes, irritants, particulates, biological (infectious) and non-biological hazards, and/or heated gases, despite the use of personal protective ensembles and SCBA;
4. Climbing five or more flights of stairs while wearing fire protective ensemble weighing at least 50lbs (22.6 kg) or more and carrying equipment/tools weighing an additional 20 to 40 lbs (9 to 18 kg);
5. Wearing fire protective ensemble that is encapsulating and insulated, which will result in significant fluid loss that frequently progresses to clinical dehydration and can elevate core temperature to levels exceeding 102.2 F (39 C);
6. Searching. Finding and rescue dragging or carrying victims ranging from newborns up to adults weighing over 200 lbs (90kg);
7. Advancing water filled hoseline up to 2 1/2" (65mm) in diameter from fire apparatus to occupancy (approx. 150 ft. (50m)), which can involve negotiating multiple flights of stairs, ladders, and other obstacles;
8. Climbing ladders, operating from heights, walking or crawling in the dark along narrow or uneven surfaces, and operating in proximity to electrical power lines and/or other hazards;
9. Unpredictable emergency requirements for prolonged periods of extreme physical exertion without benefit of warm-up, scheduled rest periods, meals, access to medication(s), or hydration;
10. Operating fire apparatus or other vehicles in an emergency mode with emergency lights and sirens;
11. Critical, time-sensitive, complex problem solving during physical exertion in stressful, hazardous environments, including hot, dark, tightly enclosed spaces; that is further aggravated by fatigue, flashing lights, sirens, and other distractions;
12. Ability to communicate (give and comprehend verbal orders) while wearing personal protective ensembles and SCBA under conditions of high background noise, poor visibility, and drenching from hoselines and/or fixed protective systems (sprinklers);
13. Functioning as an integral component of a team, where sudden incapacitation of a member can result in risk of injury or death to civilians or other team members.

**Assessment:** Please review the job task description carefully.

	YES	NO
Is the applicant medically fit to perform duties described?		
Are there any medical concerns that may impact on the individual's ability to perform the duties described?		
Comments:		

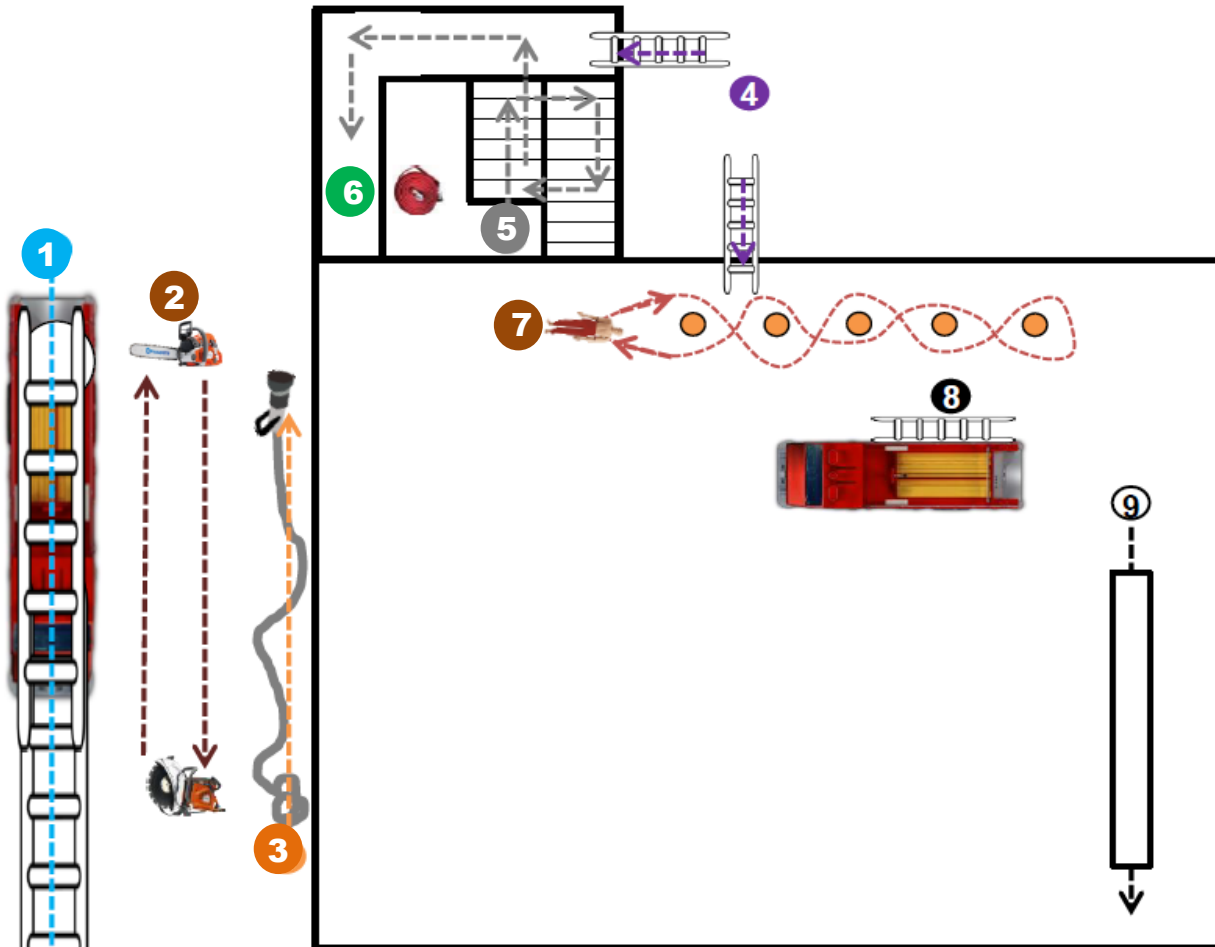

I, the undersigned, am a legally qualified medical practitioner, licensed to practice in the Province of Manitoba. This report confirms my evaluation and medical opinion of the applicant.
